## EDUCATION

Sagar Institute of Research & Technology

B.Tech in Computer Science(Artificial Intelligence and Machine Learning)

CGPA: 7.39

Bhopal, Madhya Pradesh

Graduated, June 2025

## PROFILE SUMMARY

Aspiring Software Developer with a strong foundation in **Java, JDBC, and modern frontend technologies (React, Tailwind CSS)**, seeking opportunities in a dynamic organization to leverage technical skills and contribute to scalable software solutions.

- Proficient in **Java-based and full-stack application development**, focusing on scalable, modular, and efficient architecture.
- Experienced in **end-to-end project development**, from requirement analysis and UI design to implementation, testing, and deployment.
- Strong understanding of **MVC architecture, database management (SQL, JDBC), RESTful APIs**, and responsive web design principles.
- Passionate about **building interactive user interfaces** and maintaining clean, maintainable codebases.
- Committed to continuous learning and staying updated with **emerging tools, frameworks, and software development best practices**.

## PROJECTS

Yum Express

June 2024- July 2024

**Technologies:** Java, SQL

A full-featured **food ordering system** that enables user authentication, order management, and database interaction.

### Key Responsibilities:

- Developed the frontend using Java and integrated API communication for seamless data exchange.
- Designed and implemented a scalable backend to handle data storage, retrieval, and user authentication efficiently.
- Applied modular programming principles using Java interfaces, ensuring a clear separation of concerns and easier system enhancements.

GadgetHub

September 2024 – October 2024

**Technologies:** Java, Bootstrap, HTML, CSS

A Java-based e-commerce web application with seller and buyer sections, featuring **session** management, authentication, CRUD operations, and MVC architecture.

### Key Responsibilities:

- Developed and managed the backend using Java Servlets, handling user requests, authentication, and database operations efficiently.
- Designed dynamic JSP-based web pages to display real-time data, ensuring an enhanced user experience.
- Implemented MVC architecture using JSP for views, Servlets for controllers, and JDBC for database interactions.

## ACADEMIC ACHEIVEMENTS

- Earned a certification in **Application Development using Flutter**, demonstrating proficiency in flutter technologies.
- Successfully **led project teams**, enhancing team efficiency and ensuring timely project delivery.

## SKILLS

**Programming:** Java, HTML/CSS, SQL, JavaScript, React

**Tools:** Visual Studio, Git
